Passive imaging and monitoring in wave physics: from seismology to ultrasound - 6th edition

The goal of this summer school is to gather young scientists (graduate students, post-docs) and senior scientists working in the field of ambient noise imaging and monitoring through a multidisciplinary approach including geophysics, underwater acoustics, ultrasonics and wave physics in general.

Online application is now open

The number of participants is limited. The main criteria for selection will be based on your research interest and your motivation to participate to this school.

Please apply and submit your abstract [here](#) by **19 December 2021**.

NO PAYMENT IS REQUIRED AT THIS STAGE

Registration fee:

PhD : 400 EUR Post-doc : 600 EUR

The registration fee covers attending of all conference sessions, coffee breaks, lunches, accommodation, transfers between the school and the airport, and a convivial dinner.

For more information on the school and the registration process, please visit [Passive Imaging Cargese 2022](#).

Speakers

Josselin Garnier, Andrew Curtis, Anne Obermann, Anne Paul, Fabrice Ardhuin, Bérénice Froment, Léonard Seydoux, Chris Marone, Shujuan Mao, Céline Hadziioannou, Alexandre Aubry, Ludovic Margerin, Diane Rivet, Mathias Fink, Florent Gimbert.

Scientific Committee

Michel Campillo, Florent Brenguier, Pierre Boué, Laurent Stehly, Helle Pedersen, Nikolai Shapiro
